

"Results with the Sublime procedure  
are so good that people ask if I have  
had a face lift."

Mother of two - age 45

## Syneron & Candela

two extraordinary brands, one global leader.

Syneron has a remarkable ability to innovate the  
newest technologies in aesthetic medicine.

Candela brings four decades of industry-leading  
scientific expertise.

Together, these two brands offer "gold standard"  
technologies for advanced aesthetic solutions.

# Sublime Skin Contouring

## Reverse the Signs of Aging Without Downtime

Comfortably reverse the signs of aging and achieve a more youthful appearance without downtime. elōs® is the first and only technology that uses combined energies to effectively stimulate collagen production and improve your overall skin quality in areas that are most telling when it comes to age, such as the eyes, brow lines, cheeks and around the neck.

### How does Sublime work?

The combined bi-polar radiofrequency and light energies of elōs® technology precisely heat the dermal tissue, stimulating collagen production within the target treatment area. Fine wrinkles are reduced, facial contours improved and overall skin quality reveals a much smoother and even complexion.

### When can I expect to see results?

Most patients see gradual and cumulative results throughout their Sublime treatment series. The total number of required treatment sessions depends on your skin's condition.

### Is Sublime right for me?

elōs® technology is a safe and effective solution for most skin types.

### Does it hurt?

Sublime is a gentle, comfortable treatment requiring no downtime. Many patients return to normal activities immediately after the treatment. Cooling of the skin's surface provides enhanced safety and additional comfort.
